

Alumno: Ramirez Ramirez David Ivan
Materia: Inteligencia de Negocios
Fecha: 25/julio/2026
Número de Actividad: 9

1. Muestre todos los esquemas de la base de datos.

postgres=# \dn

```
postgres=# \dn
List of schemas
Name | Owner
-----+-----
public | pg_database_owner
(1 row)

postgres=# |
```

2. Muestre todas las tablas de todos los esquemas de la base de datos.

postgres=# \dt *.*

Schema	Name	Type	Owner
information_schema	sql_features	table	postgres
information_schema	sql_implementation_info	table	postgres
information_schema	sql_parts	table	postgres
information_schema	sql_sizing	table	postgres
pg_catalog	pg_aggregate	table	postgres
pg_catalog	pg_am	table	postgres
pg_catalog	pg_amop	table	postgres
pg_catalog	pg_amproc	table	postgres
pg_catalog	pg_attrdef	table	postgres
pg_catalog	pg_attribute	table	postgres
pg_catalog	pg_auth_members	table	postgres
pg_catalog	pg_authid	table	postgres
pg_catalog	pg_cast	table	postgres
pg_catalog	pg_class	table	postgres
pg_catalog	pg_collation	table	postgres
pg_catalog	pg_constraint	table	postgres
pg_catalog	pg_conversion	table	postgres
pg_catalog	pg_database	table	postgres
pg_catalog	pg_db_role_setting	table	postgres
pg_catalog	pg_default_acl	table	postgres
pg_catalog	pg_depend	table	postgres
pg_catalog	pg_description	table	postgres
pg_catalog	pg_enum	table	postgres
pg_catalog	pg_event_trigger	table	postgres
pg_catalog	pg_extension	table	postgres
pg_catalog	pg_foreign_data_wrapper	table	postgres
pg_catalog	pg_foreign_server	table	postgres
pg_catalog	pg_foreign_table	table	postgres
pg_catalog	pg_index	table	postgres
pg_catalog	pg_inherits	table	postgres
pg_catalog	pg_init_privs	table	postgres
pg_catalog	pg_language	table	postgres
pg_catalog	pg_largeobject	table	postgres
pg_catalog	pg_largeobject_metadata	table	postgres
pg_catalog	pg_namespace	table	postgres

3. Muestre la descripción de todas las tablas, enums, tipos o cualquier otra estructura que haya definido para generar o definir la base de datos.

\d *.*

```
postgres=# \d *.*
```

Column	Type	Collation	Nullable	Default
oid	oid			
fdowner	oid			
fdoptions	text[]	C		
foreign_data_wrapper_catalog	information_schema.sql_identifier			
foreign_data_wrapper_name	information_schema.sql_identifier			
authorization_identifier	information_schema.sql_identifier			
foreign_data_wrapper_language	information_schema.character_data			

Column	Type	Collation	Nullable	Default
oid	oid			
svoptions	text[]	C		
foreign_server_catalog	information_schema.sql_identifier			
foreign_server_name	information_schema.sql_identifier			
foreign_data_wrapper_catalog	information_schema.sql_identifier			
foreign_data_wrapper_name	information_schema.sql_identifier			
foreign_server_type	information_schema.character_data			
foreign_server_version	information_schema.character_data			
authorization_identifier	information_schema.sql_identifier			

Column	Type	Collation	Nullable	Default
asname	name			
relname	name			
attname	name			
attfdoptions	text[]	C		

Column	Type	Collation	Nullable	Default
foreign_table_catalog	information_schema.sql_identifier			

4. Número de colonias por municipio.

nombre_bd=#SELECT * FROM ?;

codigos_postales=# SELECT

codigos_postales-# d_mnpio AS municipio,

codigos_postales-# COUNT(d_asenta) AS total_colonias

codigos_postales-# FROM sonora.codigos_postales

codigos_postales-# GROUP BY d_mnpio

codigos_postales-# ORDER BY total_colonias DESC;

```
postgres=# \c codigos_postales
You are now connected to database "codigos_postales" as user "postgres".
codigos_postales=# SELECT
codigos_postales-# d_mnpio AS municipio,
codigos_postales-# COUNT(d_asenta) AS total_colonias
codigos_postales-# FROM sonora.codigos_postales
codigos_postales-# GROUP BY d_mnpio
codigos_postales-# ORDER BY total_colonias DESC;
```

municipio	total_colonias
Hermosillo	2120
Cajeme	1698
Alamos	535
Navojoa	479
Nogales	376
Huatabampo	293
Guaymas	286
Magdalena	281
Agua Prieta	268
Etchojoa	213
Cananea	184
Fronteras	166
Caborca	159
San Miguel de Horcasitas	135
San Ignacio RYo Muerto	130
Imuris	118
Arizpe	117
Puerto Peasco	104
San Luis RYo Colorado	101
Benito Juarez	88
Empalme	87
Bavispe	67
Bacerac	65
BenjamYn Hill	52
Nacozari de GarcYa	50
BBcum	41
Santa Ana	36
Cumpas	36
Altar	35
Carb%	34

5. Municipio con el mayor número de colonias (creo que es Hermosillo).

```
nombre_db=#SELECT * FROM ?;
```

```
codigos_postales=# SELECT
```

```
codigos_postales-#   d_mnpio,
```

```
codigos_postales-#   COUNT(*) AS numero_colonias
```

```
codigos_postales-# FROM sonora.codigos_postales
```

```
codigos_postales-# WHERE d_tipo_asenta = 'Colonia'
```

```
codigos_postales-# GROUP BY d_mnpio
```

```
codigos_postales-# ORDER BY numero_colonias DESC
```

```
codigos_postales-# LIMIT 1;
```

```
   d_mnpio   | numero_colonias
```

```
codigos_postales=# SELECT
codigos_postales-#       d_mnpio,
codigos_postales-#       COUNT(*) AS numero_colonias
codigos_postales-# FROM sonora.codigos_postales
codigos_postales-# WHERE d_tipo_asenta = 'Colonia'
codigos_postales-# GROUP BY d_mnpio
codigos_postales-# ORDER BY numero_colonias DESC
codigos_postales-# LIMIT 1;
   d_mnpio   | numero_colonias
-----+-----
Hermosillo |             351
(1 row)
```

```
codigos_postales=# \q
```

```
C:\Users\david>
```
